

The equation of a line from its graph

Exit ticket Name _____

- 1 A line has gradient -4 and crosses the y axis at 3 .
Write its equation.

- 2 Find the equation of the line.

- 3 Ivy says the line $y = 6 - 2x$ has a gradient of 6 .
Is Ivy right? Explain.

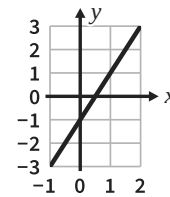

The Maths Habit

The equation of a line from its graph

Exit ticket Name _____

- 1 A line has gradient -4 and crosses the y axis at 3 .
Write its equation.

- 2 Find the equation of the line.

- 3 Ivy says the line $y = 6 - 2x$ has a gradient of 6 .
Is Ivy right? Explain.
