

Estimating from a sample

Exit ticket

Name _____

- 1 In a sample of 30 bulbs, 4 do not work.
Estimate how many of 900 bulbs do not work.

- 2 18 out of a sample of 80 homes have solar panels.
Estimate how many of 2000 homes have solar panels.

- 3 Nia asks 12 people in a library how many books they read, to estimate for her whole town. Why may this not be reliable?
