

Expression, equation, formula or inequality?

Exit ticket ANSWERS Name _____

- 1 A $12 = 5t - 3$ B $4(p - 2)$
Which is an expression and which is an equation?

A equation, B expression

- 2 A $C = 5n + 20$ B $3y - 1 \leq 11$
Which is a formula and which is an inequality?

A formula, B inequality

- 3 Ana says $2a + 3b$ is a formula because it has two letters.
Is she right? Explain.

No: no = sign, so an expression

The Maths Habit
