

Function machines

Exit ticket **ANSWERS**

Name _____

1 Find the output.

1 Do the first step.

$$8 \times 3 = 24$$

2 Do the second step.

$$[] + 4 = []$$

Output 28

2 Find the input.

1 Undo the last step.

$$[] - 2 = []$$

2 Undo the first step.

$$[] \div 5 = []$$

Input 8

3 I think of a number. I multiply it by 4. Then I take away 1. I get 27. What is my number? Show your steps.
