

Mixed transformations: perform

Exit ticket ANSWERS Name _____

- 1 P (2, 5) is reflected in the line $y = 3$.
Write the coordinates of its image.

(2, 1)

- 2 Rotate shape A 90° clockwise about (0, 0).

- 3 Kai translates (3, 1) by $\begin{pmatrix} -2 \\ 4 \end{pmatrix}$ and gets (5, -3).
What has he done wrong? Write the right answer.

Subtracted: (1, 5)
