

The probability scale

Exit ticket ANSWERS Name _____

- 1 A spinner has 10 equal sections. 7 are blue.
It is spun once. How likely is it to land on blue?

Likely

- 2 A fair dice is rolled.
Mark with a cross the
probability that it lands on
an even number.

- 3 A bag holds 4 red counters and 1 blue counter.
Kai says picking blue is an even chance because there
are two colours. Is Kai right? Explain.

No: unlikely, 1 in 5
