Name _____

- 1 A bag holds 5 red and 6 blue counters. One is taken at random. Find P(red).

- 2 A bag holds 3 red, 4 blue and 2 white counters. One is taken at random. Find P(not blue).

- 3 A bag holds 4 green counters and some yellow counters. $P(\text{green}) = \frac{1}{3}$. How many yellow counters are there?
