Rearranging formulae: powers and roots

Exit ticket Name _____

1. Make x the subject of $y = x^2 - 8$

2. Make x the subject of $p = \sqrt{x} + 6$

3. Make x the subject of $t = (x - 3)^2$

4. Make x the subject of $k = \frac{5}{x^2}$

The Maths Habit

Rearranging formulae: powers and roots
