

Relative frequency: more trials

Exit ticket

Name _____

- 1 A spinner is spun. Red is counted.

Spins	20	100	500
Red	7	31	165

Find the relative frequency of red after 500 spins.

- 2 Use the table above. Write down the best estimate of $P(\text{red})$. Give a reason.

- 3 A coin lands on heads 340 times in 500 flips. Is the coin fair? Explain.
