

Solving two step equations

Exit ticket Name _____

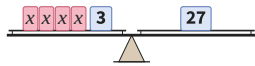

1 Solve $4x + 3 = 27$

① Get the x's on their own

- 3 both sides

$$4x = 24$$

② Find one x

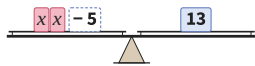

Answer _____

2 Solve $2x - 5 = 13$

① Get the x's on their own

② Find one x

Answer _____

3 Solve $5x + 2 = 37$. Show your steps.
