

Forming and Solving Equations *ramp up*

a Write an expression for three more than n 	b Write an expression for five less than n 	c Add 3 to n , then double the result. Write this as an expression 	d Three more than double n is 17. Find n
e Add 3 to n , then double the result. The answer is 22. Find n 	f Five times n is 12 more than n . Find n 	g Three consecutive whole numbers add to 48. Find the numbers 	h One number is three times another. They add to 28. Find the numbers
i Find x  	j Find x  	k Find the largest angle  	l Two numbers add to 20 and differ by 6. Find the numbers
