

Scatter Graphs *ramp up*

a What type of correlation is this?  _____	b What type of correlation is this?  _____	c What type of correlation is this?  _____	d As x increases, what happens to y?  _____
e Strong or weak correlation?  _____	f Find the outlier's coordinates  _____	g Correlation proves one thing causes the other. True or false? _____	h Which line is the line of best fit?  _____
i Must a line of best fit go through (0, 0)? _____	j Estimate y when $x = 6$  _____	k Estimate x when $y = 6$  _____	l The data have x values from 1 to 9. Is an estimate of y at $x = 30$ reliable? _____

The Maths Habit
